June 14-21, 2022

Here is a statement from a Democratic candidate for elected office:

The Democrat says that student learning really suffered during the pandemic and that we need to catch them up. The Democrat says that's why they voted to increase school funding to address the teacher shortage by hiring more teachers and raising teacher pay, to expand one-on-one and small group tutoring and after-school programs so kids can get the individual attention they need, and to provide better mental health support to students suffering after two years of isolation.
